

# AT HOME LEARNING

Year 4

Week 1

## Year 4 Learning Timetable

You will need support from a parent/carer and/or siblings.

Resources needed: Activity resources found at the end of this document.

Week One	DAY 1	DAY 2	DAY 3	DAY 4	DAY 5
Week One Tasks	Think of 3 things for which you feel grateful!	Do something to help a family member.	Tidy your room!	Find some riddles or jokes to make someone laugh!	Do something today that you don't usually like to do!
Morning	<b>ENGLISH</b> 1. Read one chapter of a novel or a book that you have at home. Record what you have read in your school diary (or on a piece of paper)	<b>ENGLISH</b> 1. Read one chapter of a novel or a book that you have at home. Record what you have read in your school diary (or on a piece of paper)	<b>ENGLISH</b> 1. Read one chapter of a novel or a book that you have at home. Record what you have read in your school diary (or on a piece of paper)	<b>ENGLISH</b> 1. Read one chapter of a novel or a book that you have at home. Record what you have read in your school diary (or on a piece of paper)  <b>ADVENTUROUS</b> Make as many 3 or more lettered words from the letters in the word above. The letters don't have to stay in order. eg. our, sent	<b>ENGLISH</b> 1. Read one chapter of a novel or a book that you have at home. Record what you have read in your school diary (or on a piece of paper)  2. Write a detailed description of a person or animal in your home. Remember to describe their personality as well as their physical appearance. Ask someone for some feedback on your writing. What changes could you make?  <b>MATHS</b> Activity 1.

# Multiplication Table

$1 \times 1 = 1$
$1 \times 2 = 2$
$1 \times 3 = 3$
$1 \times 4 = 4$
$1 \times 5 = 5$
$1 \times 6 = 6$
$1 \times 7 = 7$
$1 \times 8 = 8$
$1 \times 9 = 9$
$1 \times 10 = 10$

5  
 $5 \times 1 = 5$   
 $5 \times 2 = 10$   
 $5 \times 3 = 15$   
 $5 \times 4 = 20$   
 $5 \times 5 = 25$   
 $5 \times 6 = 30$   
 $5 \times 7 = 35$   
 $5 \times 8 = 40$   
 $5 \times 9 = 45$   
 $5 \times 10 = 50$

4  
 $4 \times 1 = 4$   
 $4 \times 2 = 8$   
 $4 \times 3 = 12$   
 $4 \times 4 = 16$   
 $4 \times 5 = 20$   
 $4 \times 6 = 24$   
 $4 \times 7 = 28$   
 $4 \times 8 = 32$   
 $4 \times 9 = 36$   
 $4 \times 10 = 40$

3  
 $3 \times 1 = 3$   
 $3 \times 2 = 6$   
 $3 \times 3 = 9$   
 $3 \times 4 = 12$   
 $3 \times 5 = 15$   
 $3 \times 6 = 18$   
 $3 \times 7 = 21$   
 $3 \times 8 = 24$   
 $3 \times 9 = 27$   
 $3 \times 10 = 30$

2  
 $2 \times 1 = 2$   
 $2 \times 2 = 4$   
 $2 \times 3 = 6$   
 $2 \times 4 = 8$   
 $2 \times 5 = 10$   
 $2 \times 6 = 12$   
 $2 \times 7 = 14$   
 $2 \times 8 = 16$   
 $2 \times 9 = 18$   
 $2 \times 10 = 20$

1  
 $1 \times 1 = 1$   
 $1 \times 2 = 2$   
 $1 \times 3 = 3$   
 $1 \times 4 = 4$   
 $1 \times 5 = 5$   
 $1 \times 6 = 6$   
 $1 \times 7 = 7$   
 $1 \times 8 = 8$   
 $1 \times 9 = 9$   
 $1 \times 10 = 10$

10  
 $10 \times 1 = 10$   
 $10 \times 2 = 20$   
 $10 \times 3 = 30$   
 $10 \times 4 = 40$   
 $10 \times 5 = 50$   
 $10 \times 6 = 60$   
 $10 \times 7 = 70$   
 $10 \times 8 = 80$   
 $10 \times 9 = 90$   
 $10 \times 10 = 100$

9  
 $9 \times 1 = 9$   
 $9 \times 2 = 18$   
 $9 \times 3 = 27$   
 $9 \times 4 = 36$   
 $9 \times 5 = 45$   
 $9 \times 6 = 54$   
 $9 \times 7 = 63$   
 $9 \times 8 = 72$   
 $9 \times 9 = 81$   
 $9 \times 10 = 90$

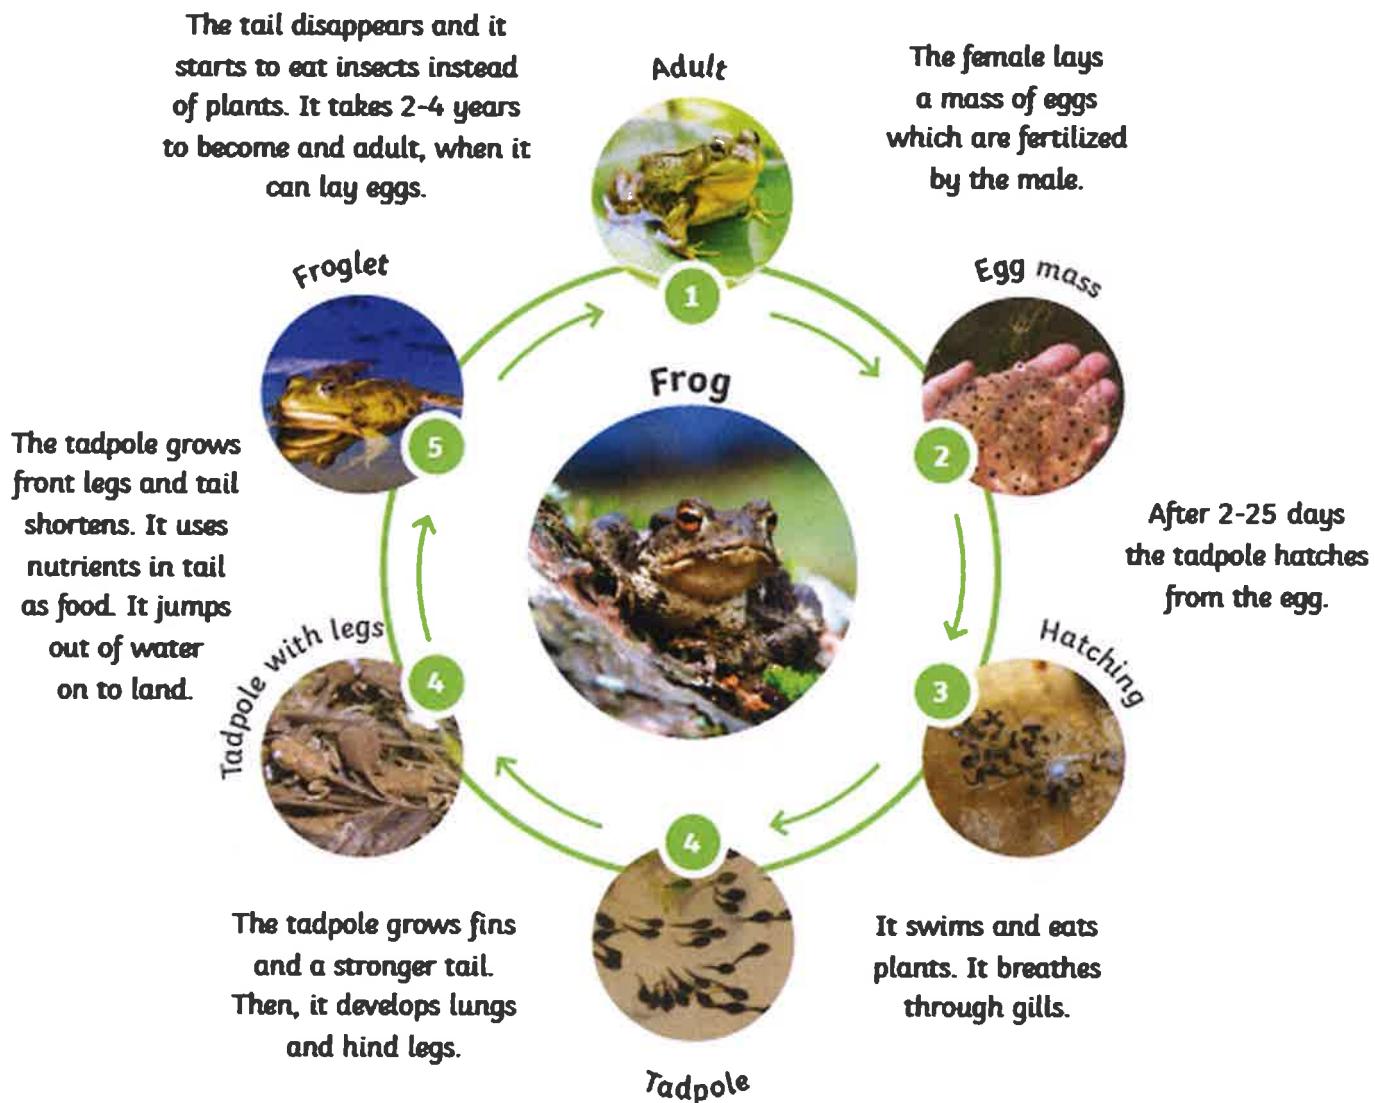

8  
 $8 \times 1 = 8$   
 $8 \times 2 = 16$   
 $8 \times 3 = 24$   
 $8 \times 4 = 32$   
 $8 \times 5 = 40$   
 $8 \times 6 = 48$   
 $8 \times 7 = 56$   
 $8 \times 8 = 64$   
 $8 \times 9 = 72$   
 $8 \times 10 = 80$

7  
 $7 \times 1 = 7$   
 $7 \times 2 = 14$   
 $7 \times 3 = 21$   
 $7 \times 4 = 28$   
 $7 \times 5 = 35$   
 $7 \times 6 = 42$   
 $7 \times 7 = 49$   
 $7 \times 8 = 56$   
 $7 \times 9 = 63$   
 $7 \times 10 = 70$

6  
 $6 \times 1 = 6$   
 $6 \times 2 = 12$   
 $6 \times 3 = 18$   
 $6 \times 4 = 24$   
 $6 \times 5 = 30$   
 $6 \times 6 = 36$   
 $6 \times 7 = 42$   
 $6 \times 8 = 48$   
 $6 \times 9 = 54$   
 $6 \times 10 = 60$

# The Amphibian Life Cycle

## Other Amphibians

# The Life Cycle of a Sea Turtle

The sea turtle life cycle starts when a female lays its eggs on a nesting beach, usually in the tropics. From six weeks to two months later (depending on the species), a tiny hatchling makes its way to the surface of the sand and heads to the water, dodging every predator imaginable.

## What is the Sea Turtle Life Cycle?

1. **BABY TURTLES:** Baby turtles (or hatchlings) start out as eggs that are laid in nests on beaches around the world. Once ready to hatch, they break out of the egg with an egg tooth (called a “caruncle”), move slowly up the sand until they get to the surface, and then head to the water.

2. **JUVENILE TURTLES:** As young (or juvenile) turtles, they head out to sea. From there, in many cases, we do not know where they go (that's why we call them “the lost years.”) Some turtles born on the US East Coast head out to an area called the sargassum sea, a large area with seaweed known as sargassum, where they feed and grow.
3. **ADULT TURTLES:** Once they are fully grown, they head back to where they were born to mate. Adult females will mate with multiple males and then when ready, the climb up onto the nesting beach to lay their eggs, starting the cycle again.

## Sea Turtle Nesting

Sea turtles around the world nest on beaches in warmer places (tropical and subtropical beaches.) The female goes ashore, digs a body pit then and a nest (or egg chamber), lays the eggs, and finally covers up the nest. After that, they will camouflage the nest, covering a big area with sand, to hide the nest, and then head to the water. About six or seven weeks later, the hatchlings will emerge and then head to the water.

## "The Lost Years"

From the time the hatchlings take their first swim, until they return to coastal waters to forage as juveniles, this may be as long as a decade. This period is often referred to as the "lost years", since following sea turtles movements during this phase is difficult and their whereabouts are often unknown.

Following the "lost years", when they have grown to approximately the size of a dinner plate, their pelagic (open ocean) phase comes to an end. They then return to coastal waters where they forage and continue to mature. During this time, these reptiles are highly mobile, foraging over large areas of ocean.

## Adulthood

Ten to fifty years after hatching (depending on the species), adult sea turtles reach sexual maturity and are able to mate. Once they reach sexual maturity, they will migrate to beaches around the world to nest. Only females will come ashore to lay eggs, generally in the area where they were born. Most species will nest several times during a nesting season every 2-4 years over the course of their lifetime.

It is not known exactly how long sea turtles live in the wild, but scientists think their life span may be as long as a century. Unfortunately, though, turtles face a multitude of threats related to human activities. For more information about the challenges they face, see our pages about threats to sea turtles.
